Experience

Frontend Developer, Unified Mentor – Remote

June 2024 – July 2024

- Developed an intuitive web platform to connect mentors and mentees, enhancing accessibility to career guidance.
- Designed and implemented user-friendly interfaces using React, Tailwind CSS, and Framer Motion, ensuring cross-browser compatibility and responsiveness.
- Integrated Firebase for real-time user authentication and data management, streamlining onboarding processes for users.
- Improved platform performance by optimizing reusable React components and minimizing load times through efficient code practices.
- Collaborated closely with cross-functional teams to gather user feedback and deliver seamless UX improvements.

Skills

Programming Languages: Python, C, JavaScript, HTML, CSS

Frontend Development: React.js, Next.js, Tailwind CSS, Material UI, ShadCN

Backend Development: Firebase (Authentication, Firestore), Node.js

Frameworks: Express.js, Next.js

Design and Prototyping: Figma, Framer Motion

Tools and Platforms: Git, GitHub, Vite VS Code

Personal Projects

Namma Isai – A Music Player Web Application

Aug 2024

Technologies Used: HTML, CSS, JavaScript

Designed and developed a fully functional music player with an intuitive interface, featuring play/pause functionality, volume control, progress tracking, and playlist management using local storage. Ensured a responsive design to provide seamless usability across devices.

Gram Panchayat Website

July 2024

Technologies Used: HTML, CSS, JavaScript, Firebase

Developed a community-focused website for managing ward details, applications for electricity and water connections, ward expenses, notifications, and user complaints. Incorporated Firebase for authentication and real-time data handling.

Freelance Projects

Soulsborne Guide – Community Wiki for Soulslike Game

Nov 2024

Technologies Used: React Vite, Tailwind CSS, Firebase

Soulsborne is a platform I developed to help individuals conquer procrastination, sharpen their skills, and excel in personal and professional growth by embracing challenges and pushing through barriers, inspired by the spirit of Soulsborne games.

GitHub Repo: Github

Vutoria – AI-Driven Virtual Try-On Platform

Oct 2024

Technologies Used: React, Tailwind CSS, AI Diffusion Models

Created an e-commerce platform with a unique virtual try-on feature powered by AI diffusion models. Integrated with responsive UI to offer users an immersive shopping experience.

GitHub Repo: Github

SideGig App – Freelance and Gig Worker Platform

Sep 2024

Technologies Used: React, Firebase, CSS

Designed and developed a platform for freelancers and gig workers to find and apply for jobs. Features included skill matching, secure messaging, customer feedback, and privacy options.

GitHub Repo: Github

Achievements

Pitchathon Finalist: Vellore Institute of Technology, Chennai. Demonstrated virtual try-on scalability to enhance customer experience in a 30-hour hackathon. (10/2024)

Innothon '24 Finalist: KCG College of Technology, Chennai. Presented an AI-powered virtual try-on solution at a 30-hour hackathon. (09/2024)

Education

St.Joseph's Institute of Technology, B.Tech Artificial Intelligence and Data Science

Nov 2022 – May 2026

- GPA: 8.4/10.0
